

Attention boaties!

Don't miss out on these Maritime Courses

Kimberley TAFE offers plenty of courses that will equip you with the vital skills you need for today's maritime workplace.

Marine Radio Operators Certificate

Elements of Ship Board Safety

Restricted Coxswain (includes RST)

This course covers handling your vessel in foul weather, basic ship stability, rope work, how to read & interpret weather reports, basic chart work and rules of the road. You will also learn the necessary skills to be able to take charge of a non-passenger vessel up to 8 metres and gain the practical skills to operate your boat safely and according to maritime law. A Certificate of Competency will be issued from the Department of Planning and Infrastructure. (Please note: you need to hold a Senior First Aid Cert before DPI will recognise this Certificate of Competence)

For more information and to register your interest, contact

****These courses will only be run if numbers are sufficient so make sure you enrol today!**
